

# ENVIRONMENTAL CLEAN AIR COMPANY

Improving Indoor Air Quality Since 1975

## LAD-2214

### IN-Duct Electronic Air Cleaner

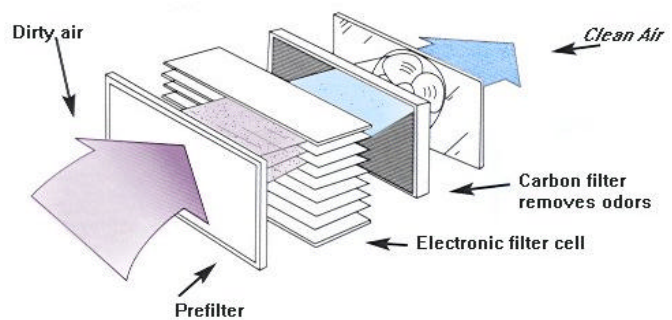

#### How The LAD Works:

The LAD electronic in-duct units protect your Heating & Cooling system from dust and dirt that will shorten the life and efficiency of your forced air system. The LAD keeps the ducts cleaner and clear of bacterial growth. The LAD will ensure clean air is delivered to every room in your house through your existing duct work.

The electrostatic filter attracts and retains airborne contaminants. As the dirty air enters larger particles are separated by a pre-filter. The smaller particles, down to .03 microns, receive an electrical charge and are then collected on a series of collector plates.

#### SPECIFICATIONS

Capacity \_\_\_\_\_ 800-2100 CFM  
 Size \_\_\_\_\_ 19.75 x 24.5 x 6.75"  
 Duct Opening \_\_\_\_\_ 22 x 14"  
 Mounting Flange \_\_\_\_\_ 1.25"  
 Weight \_\_\_\_\_ 30 lbs  
 Power \_\_\_\_\_ 120VAC/.35 amps/60 Hz  
 Efficiency \_\_\_\_\_ 97% down to .03 microns  
 Warranty \_\_\_\_\_ 7 Year Limited
